-  NO ENTRY BEYOND THIS POINT

Lakes

The Green Lake (Glaslough) - This great lake is a mile long and over 70ft deep full of monster pike and magical herons. It is filled by two deep springs. This is where we get our own bottled water.

Dream Lake - This lake got its name from the fact that it was once impossible to get to and only glimpses of it could be caught. The crannog here is a very early celtic settlement.

Kilvey Lake - This is a very deep lake full of cannibal trout and surrounded by fairies.

The Big Woods

This is part of the ancient woodlands of Truagh and is home to our 200 deer and the Rookery.

Suggested Walks

Times are from The Lodge walking at a lazy pace. Please read the guidelines below before heading out on your walk, as your safety is our primary concern.

- Main Walking Route 30 mins
- The Green Lane 45 mins
- The Lake Walk 90 mins
- The Kilvey Walk 60 mins

Guidelines for walking on Castle Leslie Estate

We all hate rules, however as our Estate is firstly an equine playground and a working farm, our main priority is everyone's safety. Please read all walking rules, before setting out on your walk.

* All dogs should be kept on leads. * Bring a mobile with you in case you get lost. Remember you may pick up UK coverage so dial 00353 47 88100 * Please wear sensible shoes or Wellington boots. * Bikes & Buggies - We are sorry to say that bicycles and buggies and horses don't mix. Horses cannot hear them approach and so may 'spook' and unseat their rider. * Horses - If you hear a ride coming, please all stand to one side where you can be seen and hold onto small children until they have passed. * Umbrellas - Horses are terrified of them. Please fold up until they have passed. * Rubbish - Leave nothing but footprints behind * Plants - Take no more than your memories home * Due to the vast array of livestock on the Estate, picnics are only allowed in designated areas of the Estate. * Gates - Please do not open these as there is livestock in all the fields. We have stiles and passes by which you can use.

The Integrated Wetlands

This is nature's solution to nature's problem. This area is made up of 5 ponds, some being the old ice ponds and over 25 species of flora and fauna. It is a delightful area to wander. To find out more about how this works, there is an information point here.
